

Holy Quran Removes Veils Of Ignorance

CONT...

Q) QURAN SEEMS DULL AND BORING, BUT IS IT?

Hmm... That's the most common feeling and objection we all get to hear! Actually, the Holy Quran is the **BIGGEST** most interesting **LIBRARY** of every kind of knowledge, whether in science, ethics, or history. It applies to us in every way, be it personal, social or political, containing everything that humans ever require for their guidance. Not a word or a verse lacks in depth or meaning, and 'boring' is the last and most unsuitable adjective this Beautiful Book deserves!

AN IDEA:

Countless methods can be used to explore this immense Library of the Almighty, to discover its vast treasures, so as to be inspired by the unending ocean of knowledge and mystery that lie within its covers. Let us dwell on one of the ways which would appear rather strange, but nevertheless, an effective one.

How do we do that?

- ✓ We choose any one Quranic Chapter, recite it and go through its meanings.
- ✓ Next we look up the merits of that particular Surah, read them and just ask ourselves "why would God bestow such great rewards to one who recites and applies the lessons from a seemingly simple Quranic chapter?"
- ✓ That's when the thoughtful reader suddenly hits upon the powerful connection every surah has with its benefits. And we begin to feel a magnetic pull towards the Book as heart, mind, and soul all unite to grasp and be enchanted by the deep rhythmic, logical, earthly, metaphysical and divine messages it begins to send through man's entire physical and spiritual being!!

OH, REALLY?

Yes, Certainly!! As an example we shall discuss Surah Al – Maun in a nutshell. A chapter with just seven verses yet has unimaginable depth in meaning and merit.

To be continued...
